Non-perishable food item donations are greatly appreciated. The food collection will be a **drive-through** format, to minimize contact with the public and first responders. The goal is to collect food for people in the community who rely on the **IMPACT** food bank today.

"Being able to supply food to families in our community provides the full circle of care which has never been more important than it is right now," said **Fire Chief Randy Karrer**.

Donations will put food on the tables of low-income families who are without. The **IMPACT** clients have little to no money to keep their pantries stocked. **IMPACT** is currently feeding more than **1,800 people** and purchasing fresh food from wholesalers. Layoffs are still happening and more people are enrolling with their food bank on a daily basis.

More than ever, IMPACT of Southern Arizona needs the community's help!
