People Helping People

We are more than just a financial institution. Our company culture is built on the simple notion that a great financial institution is about relationships and not transactions. It's more than being good with money; it's being good with people. We stay true to our roots as a not-for-profit financial cooperative whose main focus is providing

the highest possible value to our membership in the simplest way. We have a firm commitment to enhancing the standard of living in our communities and to make Arizona a more desirable place to live. We give back to local causes, volunteer, provide financial literacy, and encourage our employees to donate their own time to local organizations as a way to further the credit union philosophy of *People Helping People*.
